

## Viewing Catalog and Schedule Information

**Class Schedule** and **Course Catalog** information is best viewed using Self Service Banner (SSB). You do not need a login to access the information. You can get to SSB without logging in by going to the college's homepage and clicking on **Academics**, and then choose either **College Catalog** or **Class Schedules** from **Related Links** on the right navigation page.

Use search criteria to refine the list of courses you want to look at. You can choose 1 subject, use Ctrl key to choose multiple subjects. (You can also search on all of the subjects but the results will take longer to return.) You can also further refine your search by selecting an attribute, or Area.

## Course Catalog

The course **catalog** contains course descriptions, including prerequisites and registration restrictions. Sample **Catalog Entries** are below. Clicking on a title displays additional information displayed as **Detailed Course Information**.

## Class Schedule

The schedule contains a list of courses offered for the term. You can also get a quick view of enrollment numbers within a department. The screen shot below displays the course offerings and enrollment numbers for Astronomy.

### Class Schedule Listing

[Home](#)

If a class is full, Rem (remaining) will display zero or a negative number. Or, if cross-listed, XL Rem will display zero or a negative number. For detailed information about the course, click on the CRN. For textbook information

Time slots listed as 12:00am - 12:01am indicate that the time slot has not yet been determined.

Key: M = Monday, T = Tuesday, W = Wednesday, R = Thursday, F = Friday; Cap = Capacity, Act = Actual Seats, Rem = Remaining Seats, XL = Total Combined Cross List.

## Cross Listed Courses

Many departments choose to offer courses cross listed in other departments. Each course is listed separately but the students for each listing are in one classroom together at the same time and location with the same instructor. Enrollment numbers for cross listed courses should be viewed in the Cross List columns which add together the enrollment for each listing.

In the screen shot below, ES 326 and GOV 326 are cross listed. Looking in the Section, Act column, you can see that 9 students registered for ES 326 and 3 students registered for GOV 326. Looking in the Cross List, XL Act column, you can see the total of 12 registered students.
