

SALT Conference

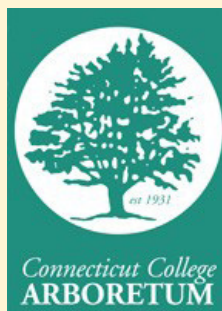

SMALLER AMERICAN LAWNS TODAY

Deconstructing the American Landscape

Saturday, November 19, 2016
8:30 a.m. to 4:30 p.m.

Professional landscapers, designers, and home gardeners are choosing to use native plants for many reasons—not only because they are beautiful and hardy, but also because they provide essential food and shelter for wildlife and help to maintain a unique sense of place. Join us for this day-long conference to discuss the demise of the American lawn, the definition of “native,” and the future of native plants in our built landscapes.

NEW ENGLAND
**WILD
FLOWER
SOCIETY**
